Databases/Tools	PostgreSQL, Drizzle ORM, MongoDB, Git, GitHub Actions, Zod, Sentry
Soft Skills	Adaptability, Collaboration, Effective Communication

EXPERIENCE

Program Analyst Trainee — Java, Selenium, TestNG, BDD August 2025 - Ongoing
Cognizant Pvt. Ltd. *Hyderabad, India*

- Developing an **SEC filing compliance platform** for insider filings (Forms 3, 4, and 5), building **Java/Spring Boot** server +vices and REST APIs that parse, validate, and track beneficial-ownership disclosure data.
- Designed SQL data models and validation rules for filing workflows, improving accuracy of regulatory data and **reducing bugs by 20% through regular code reviews and feedback.**
- Strengthened release confidence by automating 70+ regression checks over the filing pipeline, cutting manual verification effort by 15% and keeping filing-deadline-driven deliverables on schedule.

PROJECTS

Papped.co — React, TypeScript, Cloudflare Workers, PostgreSQL ([Link](#))

A full-stack, camera-first web platform where event guests scan a QR code and instantly capture photos and video clips into a shared, organizer-managed live gallery – no app install required.

- Built a mobile-first Progressive Web App (PWA) with **React 19, TypeScript, Vite, and Tailwind CSS**, featuring an in-browser camera with WebGL compositing, offline-capable uploads via IndexedDB, and Framer Motion landing-page animations.
- Designed and implemented a serverless backend on **Cloudflare Workers** using Hono and Drizzle ORM over Neon **PostgreSQL**, with JWT authentication, Zod request validation, and S3-compatible R2 object storage with presigned uploads and CORS hardening.
- Ensured product quality with **Playwright end-to-end tests and Vitest unit tests** across web and API, plus Sentry error monitoring and PostHog product analytics, shipping through a staging-gated CI/CD workflow on GitHub.
